This game will soon create the trend of raising virtual pets and you will be one of the first to experience it.Introduce about My Talking Tom FriendsVirtual pet games have long been popular. Leading in this category are My Talking Angela and My Talking Tom 2 from Outfit7 developer. To make their players more satisfied, they have added another version is My Talking Tom Friends. The Talking Tom cat now has new friends and you will probably work harder to take care of them!More pets, more funUnlike previous single pet games, My Talking Tom Friends has a lot of pets, including Tom, Hank, Angela, Ginger, Ben and Becca. On a beautiful day, they decided to move to the same house to have more fun. I think, seeing your pets play together will make you happy.But...Taking care of one pet and playing with him seems to have taken quite a bit of your time. So taking care of Tom with his friends will make you feel more harder.Pets have their own personalities and interests, Tom likes to play music and play soccer. Angela prefers trips to the park outside and plays puzzles while Hank loves to play chess and enjoys being washed many times a day. Whenever someone desires something, they will have the symbol that shows that desire on their heads. Or sometimes there is a tired expression, they lie still in one place and making a sound of complaining.Solve all these problems and show that you love them. Touch Hank and drag the screen to bring him into the bath. Buy Tom a guitar to satisfy his love of music or take Ginger out to the garden so he can follow his father to become a talented farmer.Sometimes, because of playing to much, the health of a pet is impaired and ill. Please go to the medical box to search for specific medicines. Syringes, water bottles, air hammers for massages or watching promotional videos to receive magic potion which can cure any disease.Pets are very naughtyYes, they are very naughty. This not only leads to reduced resistance but also makes them feel hungry and dirty. In this case, you can force them to go to sleep or throw them to the floor as a punishment for not being obedient.But sometimes, they also show their talents. On several occasions, I found that Tom wanted to go into the kitchen and bake a cake. Meanwhile, Angela wants to plant trees in the garden in front of the house. She watered often so it grew very fast.Visit the storeThe store has a lot of interesting things! Your pets are often hungry and the store is where you can search for food such as cakes, fruits and snacks when the fridge is empty. Hank, Angela or Ben all have different tastes. They will not be happy when they are not allowed to eat their favorite food!And yet, it is also the place to provide unique costumes with many different styles. Examples are elegant suits and youthful outfits. Outfit7 has linked My Talking Tom Friends to the store of the remaining games in Talking Tom series. This means that there are more costumes and more interesting toys.Decorating your homePay attention to the common space in which everyone is living. All areas can be interchangeable. So is the furniture. You can rearrange it as you like, such as placing the kitchen near the bathroom or placing the bedroom close to the living room.You should also buy more furniture and replace what is old. Should the path lead from the house to the gate be fitted with wooden floors? Is the tub with a small swimming pool too cramped and should be replaced with a larger one? The choice is yours!Mini-gamesMostly, your pet's needs are a mini-game. Tom wants to play skateboard, press the D-pad icon on his head, you will control Tom skateboarding in the air. There, there are many obstacles and you need to dodge them so Tom does not fall. Hank likes to play puzzles, you can play with him. Or Angela and the other friends want a trip to the park, take them away. There are quite a lot of interesting things waiting for you in this game.I love the gift opening game. There are five selections for each round, if I receive the game's theme item, I will receive more bonus. The puzzle is also a good idea, it's an opportunity for you to show your ability to observe and organize your ideas into a great product.MOD APK version of My Talking Tom FriendsMOD featureUnlimited MoneyDownload My Talking Tom Friends MOD APK for AndroidMy Talking Tom Friends is an interesting pet game, an opportunity for you to have more fun with Tom, Angela, Hank and their other friends.
